

The 30 minute leg-stretcher (one mile)

With your back to the pub turn right and walk past the first house on your right. Ignore the Worcestershire Way waymarker but instead follow the path past some trees on your right. Emerging from the trees, you could here turn right and make a direct assault on the Jubilee but instead bear slightly left on a level path with the hill on your right. After 300 yards, above the house with the lake, Barratt's Bridge, the path begins to bear right uphill and will take you to the top of the Jubilee. Enjoy the panoramic views from the viewfinder on top. Descend through the trees, past the trig. point down to the Bringsty noticeboard and turn right back to the pub.
