

F10[®]

DISINFECTANTS

HIGH PERFORMANCE WITH SAFETY

Protect all avian species from disease with F10 Disinfectants

- **Proven effective** against all known types of pathogen. Use F10 to kill Aspergillus, Avian 'flu, Circovirus (PBFV), French Mould Virus, and more.
- **High levels of safety.** At recommended dilutions* the products can be used around birds, and left to air-dry[^], with no need to rinse.

Biosecurity with F10 products is therefore an easy, and highly effective process.

THE F10[®] AVIAN DISINFECTANT RANGE

F10 Avian Disinfectant Ready to Use

This convenient disinfectant is ready to use straight from the bottle (F10CL pre-diluted at 1:50). Just apply and leave to air-dry, with no need to rinse off, providing long-lasting disinfection.

Ideal for the routine disinfection of cages, bowls, toys, perches, harnesses and more.

F10CL Avian Disinfectant

F10 Avian Disinfectant in a concentrated form.

Simply dilute* at the required rate, apply, and leave to air-dry for long-lasting control of all types of pathogen.

F10CLXD Avian Disinfectant Cleanser

The F10 Avian Disinfectant concentrate, with an added detergent.

It provides an easy, 'one-step' process[^], for cleaning and disinfecting* hard surfaces such as cages, bird rooms, and more.

[^] In some instances rinsing after use is advised to remove any soap residue.

Why choose F10[®]

F10's unique combination of core actives achieves the widest spectrum of activity, killing all known types of pathogens - **bacteria, viruses, fungi & spores.**

At recommended dilutions*, the F10 range is proven safe with no reported adverse effects on people, animals or equipment.

• **Non-corrosive** • **Non-irritant** • **Biodegradable**

With **independent test data to support all claims**, you can be confident you are using the best to keep you and your birds safe.

That is why the F10 range is used and recommended by so many avian experts.

SELECTED PRODUCTS IN THE F10[®] RANGE

Whatever the situation there is a product in the F10 range which can help you to eliminate all pathogens, quickly, easily and safely. Below are some more of the products available - to see the full F10 range visit www.meadowsah.com/f10.

F10SC Veterinary Disinfectant & F10SCXD Veterinary Disinfectant/Cleanser

More concentrated forms of F10CL and F10CLXD (see over and dilutions* below).

F10 Hand Gel

A waterless, low-alcohol and high emollient antimicrobial hand sanitiser.

It is much kinder to hands than other gels as pathogens are killed by the F10 actives, so the alcohol content can be much lower.

F10 Disinfectant Wipes

These biodegradable wipes are impregnated with F10 disinfectant. Ideal for easy and effective cleaning and disinfection of hands, objects and surfaces.

F10 Odour Eliminator

A ready to use spray of F10 disinfectant with added pine fragrance. It disinfects and kills the source of smells instead of masking them. Safe to use around birds, and on soft furnishings and hard surfaces.
